

ALI BASIT

Gilgit, Pakistan | +923487948895 | alishumailali678@gmail.com | <https://www.linkedin.com/in/alibasit02/> | <http://github.com/MuziSan07> | <https://muzisan07.github.io/my-portfolio/>

PROFESSIONAL SUMMARY

AI Engineer with experience in machine learning, deep learning, and AI model development. Proficient in Python and AI frameworks for building scalable intelligent systems. Strong problem-solving skills with a focus on delivering practical AI solutions, particularly in Python, Artificial Intelligence, and Machine Learning roles.

CORE SKILLS

Python · Machine Learning · Deep Learning · Natural Language Processing (NLP) · LLM Integration · LangChain · AI Model Development · Prompt Engineering · Data Preprocessing · Model Training & Optimization · AI APIs Integration · Vector Databases · AI Automation · FastAPI (AI APIs) · AI Application Development · C++ · Linux · GitHub Actions · Git · Problem Solving · System Design · Debugging · Team Collaboration · Software Architecture

PROFESSIONAL EXPERIENCE

Data Scientist — Geo Labs

September 2023 | September 2024

- Developed and implemented data-driven solutions using Python and Django, resulting in a 25% increase in data analysis efficiency
- Built and deployed machine learning models using scikit-learn and TensorFlow, achieving a 90% accuracy rate
- Collaborated with cross-functional teams to design and implement data visualization dashboards using React.js and D3.js
- Improved data processing time by 30% through optimization of database queries and indexing

AI Engineer — Tech Fusion

October 2024 | January 2025

- Designed and developed AI-powered solutions using Python, TensorFlow, and PyTorch
- Built and deployed machine learning models, achieving a 95% accuracy rate
- Collaborated with data scientists to design and implement data-driven solutions using Apache Spark and Hadoop
- Improved model training time by 25% through optimization of hyperparameters and model architecture

AI Software Developer — GenCodeLabs

January 2025 | January 2026

- Developed and integrated AI-powered chatbots using Python, NLTK, and TensorFlow, resulting in a 20% increase in customer support efficiency
- Built and deployed machine learning models using PyTorch and scikit-learn, achieving a 95% accuracy rate
- Collaborated with data scientists to design and implement data-driven solutions using Apache Spark and Hadoop
- Improved data preprocessing time by 40% through optimization of data pipelines and feature engineering

PROJECTS

Musketeer Chess — Machine Learning Engineer

- Developed neural network models for the Musketeer Chess engine, employing custom architectures and extensive data training strategies
- Contributed to enhancing AI through data annotation and fact-checking for Generative AI projects
- Utilized Python, TensorFlow, AI, machine learning, and data science to drive innovation and efficiency in AI solutions

Darjia AI — AI Engineer

- Deployed Arabic Transcription model and created a dashboard for token-based use, rate limiting, and monitoring the usage of tokens
- Added actions to manage API Keys using Transformers, FastAPI, HuggingFace, and Jinja2
- Improved model accuracy by 15% through optimization of hyperparameters and model architecture

Email Data Extraction AI — AI Engineer

- Built an AI-powered tool that extracts business contact details from emails using Groq's GPT-OSS-120B model
- Utilized FastAPI to process emails and capture information like name, company, email, phone, and website, storing it in a SQLite database
- Developed a simple web interface and an admin panel to view and manage the extracted contacts

EDUCATION

Bachelors of Computer Science — Virtual University Pakistan

2023 - 2027

CERTIFICATIONS

Certified AI and Data Science Specialist · Certified Python Developer

ACHIEVEMENTS

- Achieved Fiverr Level 1 Seller status with a 100% completion rate and 5-star reviews
- Maintained a 100% JSS rating on Upwork with 5-star reviews and a 100% client satisfaction rate
